3-phase Track Lights Accessories

Rails and connectors are necessary elements of the lighting system. The standard length of a single segment is around 1 m. If you need longer segments, then is necessary to use connectors. Depending on the design, the connectors can be straight, angled (90 °), triple (T-shaped) and with adjustable angle. 3 – phase rails contain a power connector, caps and mounting system that allows surface installation (on the wall or ceiling).

Parameter

TECHNICAL DATA:	Material : aluminum
	Color : white, black or silver

Technical data

	Item code	Dimensions [mm]	Weight
3-phase rail to rail 1m silver reflectors	RS3SS	1000 x 40 x 20	0,87kg
3-phase rail to rail headlights 1m black	RS3SC-1M	1000 x 40 x 20	0,87kg
3-phase rail to rail 1m white headlights	RS3SB-1M	1000 x 40 x 20	0,87kg
Rail mounting kit for 3-phase silver	RS3MS		70g
Rail mounting kit for 3-phase black	RS3MC		70g
Mounting kit for 3-phase rail white	RS3MB		70g
Connector for 3-phase rail silver	RS3KS		0,13kg
Connector 3-phase black adjustable angle - soft	RS3KCL-RS	226 x 32 x 33	0,13kg
Connector for 3-phase rail Type L with adjustable angle - black	RS3KCL-R	226 x 32 x 33	0,13kg
Connector for 3-phase rail Type L - black	RS3KCL	99 x 99 x 33	98g
Connector for 3-phase rail black	RS3KC		0,13kg
Connector 3-phase white adjustable angle - soft	RS3KBL-RS	226 x 32 x 33	0,13kg
Connector for 3-phase rail Type L with adjustable angle - white	RS3KBL-R	226 x 32 x 33	0,13kg
Connector for 3-phase rail Type L - white	RS3KBL	99 x 99 x 33	98g
Connector for 3-phase rail white	RS3KB		0,13kg
