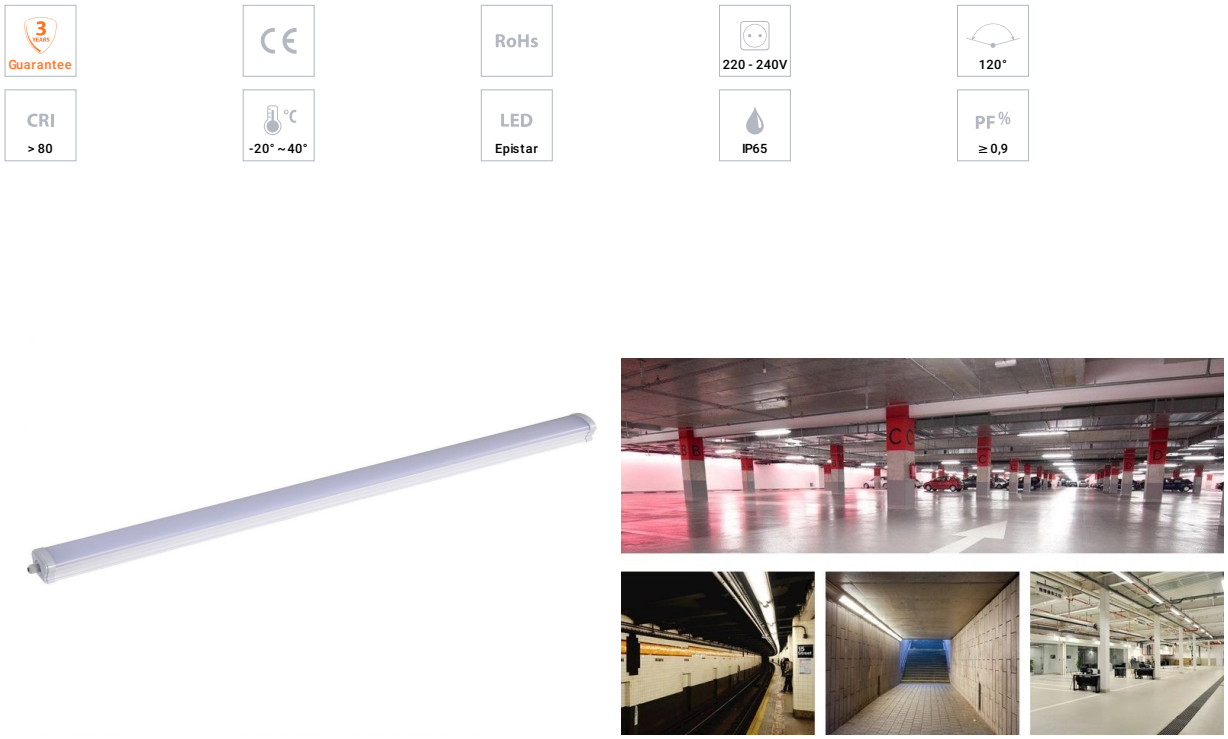
Greenie Linear LED lamp hermetic LH Slim IP65

Greenie LED linear luminaire LH Slim is a high quality polycarbonate luminaire with an integrated light source in the form of powerful 2835SMD Epistar diodes, which provide high luminous efficiency. The luminaire is made of white polycarbonate plastic, while the diode covering is matt, which reduces glare. The dimensions of LED linear luminaires are small, and additionally, they can be combined with each other and assembled in one sequence. Both, luminaires line and a single luminaire can be supplied in power from either side. Each luminaire comes with a mounting set consisting of brackets, screws and dowels for surface-mounted installation, and a retractable cable tray will significantly simplify the connection of power supply.



Parameter

TECHNICAL DATA:	Installation: both on the wall and on the ceiling Housing: polycarbonate
OPTICAL DATA:	Covering of diodes: matt
ADDITIONAL DATA:	Connecting: up to 10 frames can be combined in one sequence
